3. Anchor Us: Meeting in the Middle? Panel and open Forum

"The success or failure of high-level institutional or community-led responses can be spun by either side to show that their way is the best way. Generally, it's the interface between the two - the mess in the middle - where things really happen." **Once in a Lifetime: City-building after Disaster**

Four years after the largest quake, and almost 1000 days after the launch of the government's blueprint, here is a space and the opportunity to discuss the relative strengths and weaknesses of the two approaches and how the city can be made better by meeting in the middle.

Facilitator: Barnaby Bennett co-editor of *Once in a Lifetime*

Panellists:

Hon. Nicky Wagner, Associate Minister for Canterbury Earthquake Recovery

Ryan Reynolds, co-editor of *Once in a Lifetime*

Clarendon

4. Improving the Claims System - Community, customer and partner dialogue and information sharing

MC Brendon Burns, MACRO Communications

Gail Kettle, GM, Customer and Claims, EQC
